

Tired of the same repetition and needing some great job satisfaction?

Want to help change the lives of people with a disability?

To fulfill our government contracts and due to our continued growth and with new model vehicles in production, we're looking for Service Technician with mechanical skills to join our dedicated team.

Automobility is a leader in the manufacture of lowered floor wheelchair accessible vehicles. We require enthusiastic self motivated people to join our team on a full time basis. We pride ourselves on quality workmanship and customer service. We offer excellent working conditions for all employees and organised social events.

Duties and responsibilities:

- Service, repair and maintain wheelchair accessible vehicle modifications
- Installation of various equipment needed by persons with disability.
- Some fabrication and design aspects associated with the tailoring of the vehicle to the particular client's needs.
- Use of various hand and power/air tools.
- Work in a team of committed people.
- Follow OH&S procedures and guide lines.
- Ongoing training within the "lean" environment.
- Adhere to our COVID safe protocols.
- Inspection of work for quality as per inspection schedules.

Applicants must have:

1. Relevant Automotive trade qualifications/experience
2. The ability to problem solve and look outside of the square
3. Welding experience is desirable (Not essential)
4. Effective communicator
5. An eye for detail
6. Ability to follow processes with limited supervision
7. Driver's license
8. NDIS worker check (or willing to obtain)

The position reports to the Senior Service Technician and is at our Montrose premises. Training and instruction provided.

Hours are day shift Monday to Friday. Overtime is available.

Automobility is an equal opportunity employer.
